

LUCKY KUMARI

Python Developer | AI/ML Engineer

Phone: +91-7827843321 | Email: kumarilucky01437@gmail.com | LinkedIn: www.linkedin.com/in/lucky-kumari-3b83a2364

Github: github.com/luckylucky110507 | Location: Delhi/NCR, India

PROFESSIONAL SUMMARY

Results-driven B.Tech Computer Science student (SGPA: 8.46/10) with a strong interest in Artificial Intelligence and Machine Learning. Proficient in Python, SQL, NLP, and Scikit-learn with hands-on experience building ML models, data pipelines, and BI dashboards. Completed AI/ML and Full Stack internships delivering production-quality projects. Seeking an entry-level AI/ML Engineer role to apply technical skills in real-world applications.

TECHNICAL SKILLS

Languages: Python, SQL, Java

Machine Learning and AI: Supervised Learning, Classification, Regression, NLP, TF-IDF, Cosine Similarity, Content-Based Filtering, Image Processing

Libraries and Frameworks: Scikit-learn, Pandas, NumPy, Matplotlib, OpenCV, Flask, Streamlit

Tools and Platforms: Power BI, MySQL, Jupyter Notebook, Google Colab, VS Code, Git, GitHub

WORK EXPERIENCE

Full Stack Development Intern | CodTech IT Solutions, Remote

Aug 2025 - Oct 2025

- Developed a real-time chat application using WebSocket-based messaging, supporting 50+ concurrent users with low-latency communication.
- Built a collaborative multi-user document editor with conflict-resolution logic, enabling simultaneous edits without data loss.
- Integrated a third-party weather REST API for live data display and launched a Chrome productivity-tracker extension for daily habit monitoring.

Artificial Intelligence Intern | Codsoft, Remote

Jul 2025 - Aug 2025

- Designed a rule-based NLP chatbot covering 20+ predefined intent categories, automating responses for common user queries.
- Developed an AI-powered Tic-Tac-Toe game using the Minimax algorithm and built a content-based recommendation system using cosine similarity scoring.

Technology Job Simulation | Deloitte (via Forage), Virtual

Jul 2025

- Completed practical tasks in coding and development as part of Deloitte's Technology Job Simulation on Forage, gaining hands-on exposure to real-world software engineering workflows.

PROJECTS

Movie Success Prediction | Python, Scikit-learn, Logistic Regression, SVM, GridSearchCV

- Built and compared Logistic Regression, SVM, and Naive Bayes classifiers to predict movie box-office success (hit/flop) using features such as budget, genre, cast, and audience ratings, evaluating models on accuracy, precision, and recall to select the best-performing algorithm.

Fake News Detection | Python, NLP, TF-IDF, Scikit-learn, Streamlit

- Trained Logistic Regression on TF-IDF text from 44,898 articles, achieving 96.81% accuracy and 96.81% F1-score; deployed as a live Streamlit web app.

Movie Recommendation System | Python, TF-IDF, Cosine Similarity, Streamlit

- Built a content-based filtering engine across 1,300+ movies (Hollywood and Bollywood); deployed as a Netflix-style Streamlit application.

Voice SQL Insight Agent | Python, NLP, Speech Recognition

- Engineered a Flask-based voice analytics agent that converts spoken questions into schema-validated, read-only SQL via the Web Speech API, with conversational context memory for follow-up queries.

OMR Evaluation and Scoring System | Python, OpenCV, Streamlit

- Automated answer-sheet grading using image processing for Optical Mark Recognition, eliminating manual scoring errors.

PUBLICATIONS

Efficient Detection of Offensive Social Media Comments in Assamese Language Using LSTM - IRJCS, Vol. 12, Issue 12, Dec 2025 | DOI: 10.26562/irjcs.2025.v12i12.08

- Co-authored a peer-reviewed paper proposing a Bi-LSTM deep learning framework to detect offensive Assamese social-media comments, benchmarking it against Naive Bayes, Random Forest, Logistic Regression, and SVM baselines using skip-gram word embeddings.

EDUCATION

B.Tech in Computer Science Engineering

2023 - 2027

IIMT University, Greater Noida | SGPA: 8.46/10

Intermediate (12th): 2022-2023 | High School (10th): 2020-2021

CERTIFICATIONS

- Oracle AI Foundation Associate (2025)
- Machine Learning with Python - Infosys Springboard
- Generative AI in Software Development - IBM
- Programming in Java and Soft Computing Techniques - NPTEL
- SQL Basic Certification - HackerRank
- AI Tools Certification and ChatGPT Workshop - Be10x
- AIML workshop- CETPA Infotech

ACHIEVEMENTS

- Participated in EDTech 2024 Hackathon - Innomatics Research Lab
- Participated in Smart India Hackathon (SIH) Internal Round - IIMT College of Engineering
